Intellectual Property Treaty-Finder

Introduction

The Intellectual Property Treaty-Finder (IPTF) was prepared to help researchers locate multilateral intellectual property treaties in sources required by rule 21.4 of The Bluebook (17th ed. 2000). IPTF consists of a single alphabetical listing of main entries (by treaty titles) and cross-reference entries (by popular names and acronyms). With a few exceptions, references are to the latest revision of any given treaty. Citations to unofficial treaty sources are provided only when required by The Bluebook.

IPTF is intended as convenient finding aid, not as a compendium of model citations. Preparation of a complete citation requires finding a treaty in a Bluebook-approved source and applying rule 21.4.

IPTF will be updated periodically as new intellectual property treaties are concluded and as older treaties are published in official treaty sources.

All citations contained herein have been verified by checking treaty texts in the following sources:
